

Registered with the Public Company Accounting Oversight Board (PCAOB), Grassi has the resources and expertise to help public companies maintain ongoing SEC compliance and guide private companies toward their IPOs.

Grassi's SEC & Capital Markets team has decades of experience at "Big 4" and regional public accounting firms, as well as the PCAOB. The team leverages a personalized, hands-on approach to help clients successfully navigate the journey to IPOs, follow-on offerings and other equity and debt financing transactions.

As your public company grows, our advisors stay by your side to ensure it stays ahead of all regulatory and compliance challenges. From delivering highly accurate and timely PCAOB audit results to bringing public companies current in their SEC reporting, we help public companies confidently meet the strict standards and scrutiny of all regulatory agencies.

Our services include:

- IPO advisory
- SEC compliance and reporting
- Audit and assurance
- SPAC audits and advisory services
- M&A due diligence
- Tax planning and compliance
- Forensic accounting and fraud prevention
- Business valuations

Our professionals advise public companies in a wide range of market sectors across the country and can provide post-audit recommendations specific to your industry. As a member of the Moore North America network, our international team expands to 30,000 professionals who can lend local expertise to your global goals.
